PRINTER PAC II

For the
AMSTRAD
CPC 464/664/6128
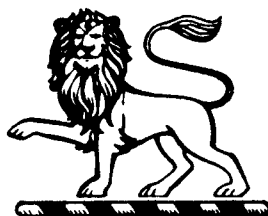

PRINTER PAC II

This program is designed for use with EPSON compatible printers including the AMSTRAD DMP-2000 and also the AMSTRAD DMP-1. It will provide graphic screen dumps using proportional shading, text dumps, printer echo and and option of a 1-16k printer buffer to return control back to you sooner whilst printing large amounts of text.

Load the program with RUN" (CTRL and small ENTER) from cassette or RUN "PP2" from disc.

SUMMARY OF NEW COMMANDS

The "|" is achieved by pressing SHIFT and @

|DUMP
This command will produce a graphics screen dump on your printer.

|TEXT
This command will produce a text screen dump on your printer.

|PRON
This command will echo new printing on the screen to your printer.

|PROFF
This will turn off the above.

|BFON
This will turn on the printer buffer, if selected.

|BFOFF
This will turn off the above and flush the buffer, if selected.
