X-CAPE

RETROGAME DEVELOPED BY COMPUTEAM

STORY OF X-CAPE

X-Cape is a retrogame that tells the story of how Erif fought against the vampires, leds by Velkan V "The Conqueror", the leader who conquered Lightnia in the year 47 before the Fire Rain.

In a Magic Continent, that it was divided in four reigns: Lightnia, the home of the wizard people, Darknan, where the vampires live, Burnnoud and Unker, two unexplored lands, the relationship between the wizards and the vampires was peaceful.

One day, Noud, the God of Fire, created a big Star of fight to illuminate Darknan and exterminate the vampire race. The destiny of the vampire race could be the total extermination, but Velkan, first of his name and his witches found the solution. They could live with the big Star of fight using wizard blood.

Velkan I conquered Lightnia and captured all the wizards in 47 before the Rain Fire. Noud puts the big Star of Fight in the sky and that moment is knew as the Fire Rain (F.R).

Today, 652 a.R.F, the vampires can live and his leader is Velkan V, but more than the 20% of wizards are die. Also, today, our hero, Erif VII, escaped from his cell to fight against Velkan V and release his people.

PLAY X-CAPE

Take the key, kill the vampires with your magic shot and run through the door to play the next level!
