LISTING

ALINKA

Il m'arrive de me poser des questions. Comment font nos lecteurs pour peaufiner des jeux de si bonne qualité ? Pourquoi ne trouvent-ils pas une idée riche et originale pour se faire publier par un éditeur ?

Ces lecteurs se nomment Frédéric Poesi (auteur de Molecularr, qui nous réserve une surprise pour bientôt) et Eric Boucher, l'auteur de notre listing de février.

Alinka est son nom. Il s'agit d'un remake de Tétris que vous ne verrez jamais sur CPC. En effet, notre ami nous propose avec beaucoup de modestie la version « borne arcade » de ce jeu ô combien diabolique.

Je voudrais rassurer tous les lecteurs qui se donnent la peine d'encoder les kilos et kilos de data. Si un listing est proposé sur plusieurs numéros, c'est que sa qualité a été au préalable approuvée par tous les membres de la rédaction. Alors vous ne pourrez être déçu par le jeu et pouvez plonger les yeux fermés. Pour vous aider également dans votre choix, nous vous proposons dans les actus une photo du jeu. Le mois prochain je vous donnerais toutes les astuces pour ne pas vous retrouver planté avec des « Syntaxe error » ou « Type mismatch in »...

Avant de me replanter comme dans Molecularr, voici le lanceur d'Alinka qui, je vous rassure, vous sera redonné en fin de listing dans deux petits mois.

```
10 MEMORY 16999
20 LOAD "ALINKA-1.BIN",17000
30 LOAD "ALINKA-2.BIN",24816
40 LOAD "ALINKA-3.BIN",32632
50 CALL 32357
```

BAM, LA TOTALE

Vous désirez avoir plein d'énergie voire même des vies infinies dans Bam, notre listing paru en septembre-octobre 1990 ? Si oui, suivez mes conseils. Pour avoir de l'énergie infinie encodez

en ligne 45 du lanceur de jeu, POKE &8BCD,0. Pour les vies, c'est encore plus simple, il suffit de faire un petit POKE &8DDB,0 à la même ligne. Votre ligne ressemblera alors à :
45 POKE &8BCD,0:POKE &8DDB,0
Sur ce, bon courage pour Alinka. N'oubliez pas, je suis de tout cœur avec vous. Ah ! Un dernier détail... Par pitié, ne sauvegardez pas les fichiers de data par le nom figurant en ligne 180, mais appelez-les, TOTO, CUCUC, POPO, DADA ou je ne sais quoi encore.

ALINKA

Voici la suite de notre méga listing. Je vous rappelle qu'il nous est proposé par Eric Boucher. Il s'agit de la version borne arcade de Tétris. C'est vous dire la qualité de ce programme.
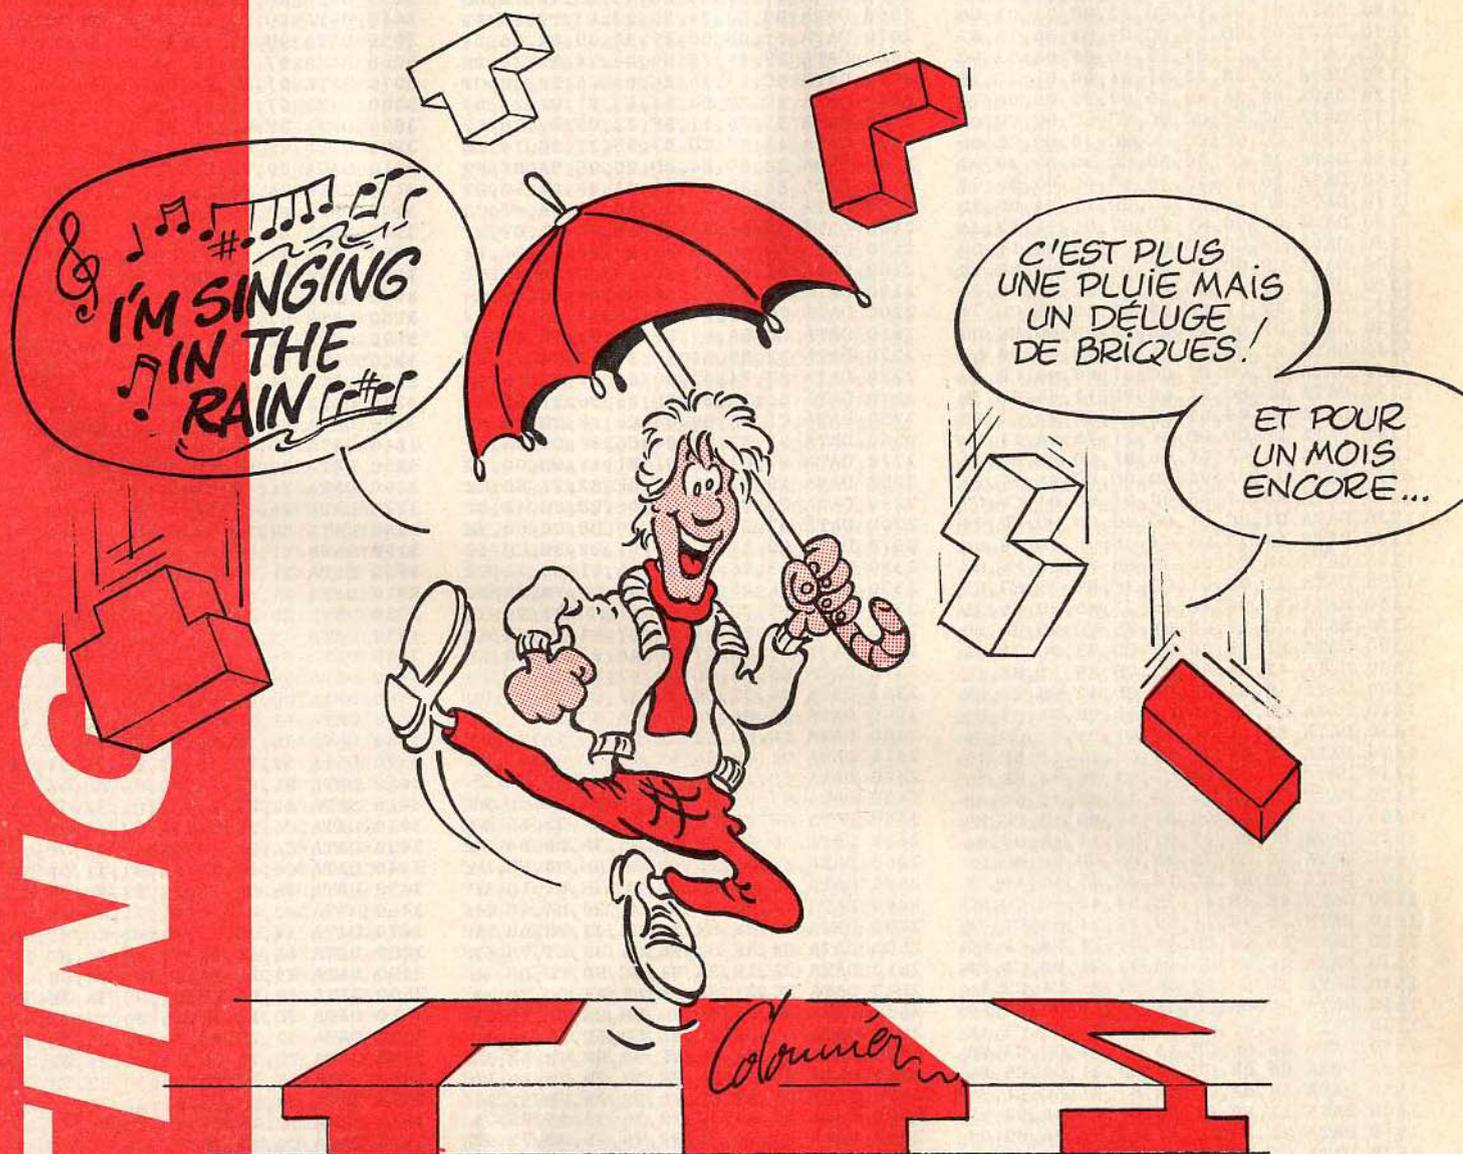

Le mois passé, nous avons eu quelques pétouilles dans les data. Voici le petit récap qui devrait faire rentrer tout dans l'ordre. Je remercie, par la même occasion, la lectrice (elle se reconnaîtra) et les lecteurs qui gardent toujours un œil très attentif sur nos pages et grâce à qui nous pouvons rattraper nos erreurs. Comme d'habitude, je vous présente mes excuses les plus plates, et pour donner une plus grande précision dans la vérification de vos listings, je vous propose le mois prochain un petit utilitaire qui devrait corriger une deuxième fois les listings d'Alinka ainsi que celui

de Molecularr. Alors, si vous n'avez pas encore vu ce fabuleurx jeu, patientez quelques jours avant de reformater votre disquette.

Vous nous demandez souvent des renseignements sur la compatibilité des jeux. Sachez qu'Alinka a tourné à la rédaction sur un 6128 normal, un 6128 + et un 464 possédant un lecteur disquette. C'est vous dire qu'il est « full compatible » toutes bécanes. Je lance un dernier appel à tous nos lecteurs. Les listings sont payés (et pas au kilo comme certains). Alors évitez de nous en donner des trop longs car il

existe quelques milliers de personnes qui vont se farcir les tonnes de data. Pitié pour eux.

I'M SINGING IN THE RAIN

C'EST PLUS UNE PLUIE MAIS UN DÉLUGE DE BRIQUES!

ET POUR UN MOIS ENCORE...

ALINKA suite et fin

Ouf ! Il était largement temps de mettre un terme à ce méga jeu. Je sais que vous êtes nombreux à avoir attendu si patiemment ce grand jour. Vous allez dès lors récolter le fruit de votre patience et de votre persévérance.

Encodez ce troisième listing. Sauvegardez-le comme d'habitude sous un nom quelconque. Lancez-le pour corriger vos erreurs commises dans les data. Vous aurez à ce moment précis trois fichiers Basic de 37 Ko. Une fois les trois listings lancés, ils généreront trois fichiers binaires aux noms de ALINKA-1, ALINKA-2 et ALINKA-3. Notez que le mois dernier nous vous proposions le numéro trois de la série et ce mois le deuxième volet du père Eric Boucher. Dans le fond, cela n'a aucune importance surtout si vous travaillez sur disquette.

Encodez ensuite le petit lanceur que voici. C'est lui qui chargera les trois fichiers binaires et vous donnera la possibilité de voir enfin ce super jeu de Tétris revu et corrigé à la façon borne d'arcade. Il va de soi que pour les possesseurs de lecteur cassette vous devez avoir — sur une cassette vierge —, dans l'ordre, le lanceur, ALINKA-1.BIN, ALINKA-2.BIN et ALINKA-3.BIN.

```
100 MEMORY 17000
110 LOAD "ALINKA-1".BIN,17000
120 LOAD "ALINKA-2".BIN,24816
130 LOAD "ALINKA-3".BIN,32632
140 DIM X(20)
150 FOR I=1 TO 20
160 X(I)=PEEK(I+32356):NEXT I
170 FOR I=1 TO 96
180 POKE 32356+I,PEEK(I+32376)
190 NEXT I:FOR I=1 TO 20
200 POKE 32451+I,X(I):NEXT I
210 CALL 32357
```

Pour jouer, c'est simple. Vous choisissez le nombre de joueurs (touche 1 ou 2) pour lancer la partie. Vous pouvez, avant le lancement du jeu, redéfinir les touches à l'aide de l'option 4. Vous allez tôt ou tard battre le score. Il sera alors créé sur votre disquette un fichier portant l'extension .TBL. Vous verrez alors apparaître, dans le tableau des meilleurs scores, votre nom ainsi que le numéro du tableau qui vous a été fatal. Avec l'option 3 (Choix du défi), vous pourrez reprendre le jeu au niveau ou à des niveaux inférieurs. Il suffit de redonner vos initiales suivies du numéro de tableau. Cé ti pa bo tout ça ?

ERREUR DANS LES DATA ?

Que nenni ! Nos listings (sauf erreur de maquette ou de notre cher transcodeur qui nous faisait apparaître des >< , etc.) ne sont pas buggés. Or donc, vous êtes très nombreux à ne pouvoir lancer nos listings. Pour cela, sachez que l'erreur vient du vérificateur. Non pas qu'il ne teste pas tout, mais quelques anomalies peuvent échapper à son œil vigilant. Sachez donc qu'une ligne de data est formée de neuf paramètres. La plus sensible est la huitième valeur. Si au bout du compte le jeu en question ne vous donne pas entière satisfaction, vérifiez cette huitième colonne dans tous les data du listing, vous aurez de fortes chances de tomber sur l'erreur qui, je vous le rappelle, est DE VOTRE FAUTE.

Pour ne pas vous laisser complètement dans la mélasse, je vous propose tout de même un petit programme qui revérifie par une deuxième méthode les listings d'Alinka, ainsi que celui de Molecularr.

Par pitié, si cette seconde méthode porte ses fruits et qu'elle vous avez réussi à reprendre vos listings, faites-le-moi savoir pour que sa parution devienne systématique.

Sur ce, bonne data et bon courage et bonne bourg et bon Noël et bonbon et BonJovi et Bonie Taylor et bonnet de nuit et bonsoir.

Bon Poum l'asile

OUF, C'EST LA DERNIÈRE BRIQUE !

ALINKA C'EST ENFIN FINI !
