

# FROGGIE!

By C.Chin

This is a version of the popular arcade game with a similar name. You can tell the original was not devised in the UK since it would have been known as "The hedgehog and the frog" since it would have been known as "The hedgehog and the MI". You play the part of a stranded frog, or to be more accurate several stranded frogs. Mates in a long way away. To reach it you have to negotiate a road and a fast-flowing river. Time is fleeting so help to it!
