

MACHAON

Victime de son avidité, un gentil papillon à très mal choisi son lieu de butinage. Des rochers instables menacent à tout instant notre lépidoptère affamé, qui, pour se rassasier des fruits de cinq tableaux particulièrement

pervers, devra faire preuve de logique et de sang-froid. Ce jeu utilise le joystick et tourne tel quel sur 6128. L'adaptation aux modèles 464 et 664, nécessite les modifications présentes dans les REM 2300, 2310.

Hervé Monchatre
