

Jewels of Darkness Hints

HOW TO USE THESE CLUES

This clue booklet contains hints about most of the objects, interesting locations and main puzzles in Colossal Adventure, Adventure Quest and Dungeon Adventure. Look down the list to locate what you want to know about and then turn to the entries indicated by the bracketed numbers to find our more about it. Of course, when you do turn to an entry you may find that it gives a short clue and you have to turn to yet more entries if you want to know the full story.

WARNINGS

Try to only read the clue entries that you are actually directed to. Otherwise you may accidentally see solutions to problems that you've not yet reached in the game. A few red herrings have been mixed in with the real clues to reduce the risk of this - you won't be referred to them if you use this clue sheet properly, but reading random entries can be misleading!

512 At the top of the Ramp
513 The Dwarf is willing to share her treasure which is in a cave near the Cliff Stairs. Like all Middle Earth Dwarves, she has a fine black beard (Illustrators please note)
514 Only accessible from the Green Pedestal, this is a look-out tower
515 Various places. A lot of passages were blocked by the general devastation at the end of Adventure Quest and they cannot be opened in this game
516 Cube of Sticky Metal, Spices, Hollow Stick, Helmet with Lamp, Dragon's Bed, Giant's Belt, Cross, Crucifix, Horn, Face Mask, Mirror, Octopus Figurine, Staff of Bone, Sword and Wand
517 Formerly a defence of the Dark Tower, this is now just a treasure. You can't do anything with it
518 Don't look back!
519 About one third of the way up the Ramp
520 North of the Lower Chamber of West of the Panelled Room
521 Rakshasa are powerful energy beings who love to wager - preferably when their opponent cannot afford to lose. Do you have object (42)? If you win they will strengthen the fires of your soul, allowing you to be resurrected even if far away from the Machine. See (286) for more about resurrection
522 In the mushroom farm, North of the Jelly Room or beyond the Dwarf's cave. They are all over the place. Clue (327) says slightly more
523 In the Packing Case
524 Unlock it from the inside, then open it from the outside
525 When animals are taught to feed themselves, pressing a button to deliver food, the apparatus is called a "Skinner Box" after an early Psychologist. In this case the reward is somewhat different!
526 Beyond the Empty Room
527 In the white House
528 Wear the blindfold, or simply close your eyes, to shut them out. In the Real World, of course, this requires punitive legislation
529 In the Haystack. See (410)
530 Up from the U-Shaped Passage
531 Southeast of the Round Room. Wear a collar
532 East of the Round Room
533 You can't cross this, but see (387)
534 North of the Stepping Stones. See (304)
535 At the top of the Cliff Stairs
536 Above the Slime Cave

- 537 North of the Drawbirdge. To enter, see (315)
538 East of the Flame Jet , Apparently
539 In the Strong Room
540 Throughout the caves. The best way of reaching them is (408)
541 Flowing North-to-South above the Mushrooms. Originally, this was intended to drip water onto the developing fungus below. Now it's almost dry
542 The Shield protects you from darts
543 Where you start. On the North bank of the River, below the Stone Face
544 North of the Narrow Crack
545 Make a map. Explore the area outside the caves, South of the River, first. Find a way of carrying more. When you've tackled the outside, light the Driftwood at the Jet of Flame and head into the caves north of the River. Good Luck! Look up the other clues 281-286 for more information
546 Just an ordinary area
547 North of the Gatehouse
548 Wear the Blindfold for protection against acid
549 South and West-ish from the Tongue Bridge
550 Avoid being in an exposed place when the Boulder passes!
551 Take it to invert the room
552 West of the Round Room
553 See clues (187-190)
554 Throw the Body to the Jellies
555 The main problem is to get past the Killer Willow. See (453)
556 Literally: SAY THE PASSWORD
557 Drop the Wedge in the Crusher Room. It's also good for (568)
558 Pull it to unlock the door. You'll need to actually open it from the other side
559 In the box room, about half way up the Ramp
560 Carry this to fend off the Vampire. See also (565) and then (568) for how to kill the Vampire
561 Bounding down the Cliff Stairs, or down the Ramp towards you
562 Use it with the Nails, and also...See (368)
563 Eat all of them , except the one in the Troll's Lair. (Eating mushrooms is one of the adventure cliches, along with keys to unlock doors and a lamp to see in the dark)
564 Nibble the growth Mushroom to grow to normal size, and again to become a Giant. Now South, past the Ants. By eating the two mushrooms near the Ants nest you can change size at will. While you are small, how about visiting (224) nearby. Then return and become normal size
565 Carry Cross and Crucifix to keep off the wights. You can't kill these
566 Drop the pig in water. It dissolves, revealing a pearl
567 This should move you to the Pedestal whose colour you said - if its colour is no higher than that of your collar. The order of colours follows the spectrum (with silver, gold and mithril being the highest of all). For example, if you were wearing the Orange Collar, you could go to Red and Orange Pedestals but not to any other. Try the system out
568 Throw the Wooden Wedge at the Vampire. The Cross works, too. Both resemble stakes
569 Beyond the Statue Room
570 Plant them only if there's an Army for the warriors to fight
571 If you take the Trident without nailing the coffin shut, he rises on auto-cue and attacks
572 This treasure is in the open, right by the entrance to the caves. Something must be wrong with it. Indeed, the treasure is just a trap to catch unwary thieves and it conceals a pit beneath all the illusory loot
573 Use it to kill the Dragon
574 When you can escape his Sleep Spell, venture East into the Forest
575 Over a Puddle in the Dry Marsh
576 Ethnic Carving, Chair, Treasure Chest, coins, Gold Egg, Lapis Lazuli, Needle, Onyx Oryx, Lump of Ore, Rock Crystal, Star Pendant, Sun Medallion and Trident
577 Avoid it by using the ladder to by pass this part of the Ramp
578 Carry 9 Gems and the Packing Case when you enter here. Wear the Helmet to provide light. Once inside, see (586)
579 Select the mystery reward once past the Skinner Room
580 The Troll's Lair is where he keeps his loot. You need to be invisible to enter. See (81)
581 Visit this room while small, see (467), via the Narrow Crack. Unlock its door. Then return and open the door from the outside, near the Silver Pedestal
582 The entrance to the caves behind the Great Stone Face
583 Near the Black Pedestal
584 Climb up onto the Throne
585 To get to the Will O'Wisp: climb the Cliff Stairs: say The Password to enter the Gatehouse; blow the Hollow Stick to enter the Black Tower; south and down to the Dry Marsh; then north-ish to the Puddle. You may need to escape from the Roc
586 This room is dedicated to EXIT. Remember them? A group who believed that people had a right to decide for themselves how long they should live. Got a rather bad press for obvious reasons. If you want to continue in this game, carry the Cross and Crucifix when leaving the Exit Room (enter the Case and swap these for the Gems which you are carrying)
