

MONNAIES ÉTRANGÈRES

Ce programme va vous permettre de connaître tout ce que vous avez voulu savoir sur les monnaies étrangères sans jamais avoir osé le demander...

Ce programme mi-encyclopédique, mi-pédagogique se présente à la fois sous la forme d'une base de données et d'un jeu pour vérifier vos connaissances. Il couvre 111 pays, 55 monnaies, 45 divisions monétaires que vous pouvez consulter en huit tableaux.

Au départ, l'ordinateur vous affiche un menu de trois options :

- Introduction au logiciel.
- Consultation des pays et monnaies.
- Rendre à chaque pays sa monnaie.

Dans le jeu éducatif, l'ordinateur annonce un pays au hasard : à vous de retrouver la monnaie (et ses subdivisions) correspondant à ce pays, soit en introduisant la bonne réponse,

soit en choisissant la solution parmi celles proposées par l'ordinateur (suivre les instructions à l'écran).

L'ordinateur donne les solutions, après réponses, pour chaque pays.

L'ordinateur vous propose une monnaie. Si vous pensez que la réponse est juste, prenez l'option D et donnez le nom. Sinon, appuyez sur C. Si vous pensez que la réponse est fautive mais que vous connaissez la monnaie sans avoir à choisir parmi les options proposées par l'ordinateur (option C), appuyez sur D et entrez la réponse qui vous semble juste. Les deux réponses étant données, l'ordinateur affiche la solution et effectue le décompte des points.

NOTA : LE CLAVIER DOIT OBLIGATOIREMENT ÊTRE EN MAJUSCULES.

J.-C. Deloffre
