

Mouche

Vous possédez une arme ultra moderne qui vous permet d'atteindre n'importe quel objectif. Pour guider votre tir, vous devrez faire converger deux mires vers le centre de la cible ; pour fixer une mire dans

une certaine position, appuyez sur <ESPACE>. Lorsque les deux mires seront arrêtées, il suffit alors d'appuyer sur <ENTER> pour tirer. L'impact correspondant est alors immédiatement affiché. A vos mires...

Daniel AUDIFFREN
