TWINS

❶ I l y a ceux que l'on nomme « les vieux de la vieille », et ce ne sont pas Luc et Hervé Guillaume qui me diront le contraire. Ces deux frères travaillaient depuis des années sous le pseudo de « Black System ».
Voici leur première apparition dans notre journal sous le nom de « Tropic Software ».

Twins est un shoot them up. Vous devez détruire, à bord de votre vaisseau, tous les aliens au service de Darkson qui a enlevé votre frère. Un jeu fort simple mais qui vous donnera du fil à retordre. Un bel exemple de programmation, mes amis (scrolling et animation fluide, bruitage et graphismes top niveau).
Pour cela, saisissez les trois fichiers en les nommant respectivement (TWINS, TOTO1 et TOTO2). Lancez dans l'ordre les deux fichiers de data (RUN "TOTO1" puis RUN"TOTO2"), ainsi deux fichiers binaires feront leur apparition sur votre disquette ou K7 (TWINS1.BIN ET TINWS2.BIN).
Utilisez le lanceur (TWINS.BAS) pour affronter les forces du mal et attention à votre barre d'énergie.
Pour la saisie des datas, je vous conseille de faire un saut à la rubrique de Franck qui vous propose un petit programme qui vous facilite la vie mais surtout vous évite les erreurs du genre :

"Type mismatch in 130".

Pour finir, un petit message personnel d'Hervé qui souhaite un bon anniversaire à sa doulcinette Béné (c'est t-y pas beau l'amour !).

Poum
